

HI-RES PHOTO TEST

October 2, 2010

By Michael Erlewine (Michael@Erlewine.net)

All of this time we have been restricted on Facebook to photos with the longest side no larger than 720 pixels. They claim to have made it possible for larger ones. Here is a larger one. See if you can find a button to DOWNLOAD it and look at it larger. Tell me how it seems, if you have time.

Thanks,

Michael
